PARTE 4:
Lea el texto y responde Verdadero (T) o Falso (F)

It has been confirmed that late on the night of the sixth of July, a large red truck ran into the bakery on Maryland Street. After an initial investigation by police, it is now clear that the truck had no driver at all. The locals are asking a simple question: "Where was the driver?" If the police want to solve this mystery, they will need the CCTV footage from the street. One of the locals said: "We're all quite worried about a truck with no driver. This truck has never been seen in the neighborhood before. If we'd seen that truck before, we'd solve this mystery now." Many locals share the same concerns. They want to know what's happening in their town.

A witness at the crime scene told police: "There was a loud noise coming from the truck while it was going towards the building and its speed.... It was unbelievable. If it had been going slower, I would've had a chance to see the driver. But all I saw was the truck speeding into the bakery as fast as it could."

The police have already spoken with eleven other residents but no one knows any further details about the incident. Superintendent Amanda Slippers remarked: "This is a tough case. The truck license plate belongs to this town, but nobody has seen it here. According to the town records, the owner of the truck moved away from here years ago. No one knows where to. If we located the owner, we'd probably solve this mystery."

If a truck moves, then it has a driver. Well, maybe we should change this basic assumption on account of this mysterious red truck.

Decide if the statements are true (T) or false (F) according to the text.

0. The text could be called "The mystery of the red truck" (T)
16. The locals knew that the red truck had an old driver. ()
17. The police have investigated all the people in the town. ()
18. The CCTV footage of the street will help the police. ()
19. The locals haven't seen the truck in the town before. ()
20. The truck ran into the building very slowly. ()

PARTE 5:
